MESA, AZ

On Saturday, September 12, 2009, Steven Zachary, minister, author of "Journey of Intimacy" and managing attorney of Brauer Law Offices, PLC spoke at our church and counseled numerous parishioners on the ever growing debt problem in our country.

In his informative talk, members of our congregation learned what pitfalls to avoid preventing them from falling into their own despair due to overwhelming debt. He then advised how they could deal with their own debt by allowing each person to have their own personal debt evaluation.

Each person who attended left with a new sense of hope that the debt they thought was once insurmountable was in fact something they could fix. Thank you to Steven and his staff, they proved there is light at the end of the tunnel.
